Introducing the New Gladiolus

LAVENDER BRIDE

FEB 20 1931

Beautiful smoky lavender, with a silvery sheen. About the largest flowered in the so-called "blue" class.

Grows tall and vigorous, and keeps well after cutting.

Prolific and produces nice bulbs.

Glad Fans will be delighted with this handsome novelty.

One of the best of the "smokies."

Although some growers with limited stocks are asking \$1.00 and \$1.25 per bulb this year, I have made the price as low as possible so that every lover of fine glads can get a start of it.
